

Better value, delivered.

Renewable Biomass and Related Services

Ref No: 1080

.....

Giving you a helping hand to choose the right
solution for your school

About YPO

We provide contractual solutions for schools all around the UK, helping you set up or renew contracts for a wide range of products and services.

Established in 1974 by a group of 13 local authorities, we're the UK's largest public sector buying organisation and we're still 100% publicly-owned today. We work closely with our suppliers and collaborate with other public sector buying organisations to achieve efficiencies and value for money, returning all our profits back into the public purse.

We can negotiate the best deal for you by combining your demands with those of other customers to create economies of scale. This means that you receive the best possible solutions and prices without ever having to compromise on service or quality.

Our team of experienced and qualified procurement professionals can offer you advice, guidance and expertise on procurement, as well as supporting you through the process if you need any extra help.

DPS overview

**We've got a range of DPS agreements for you to choose from.
But what exactly is a DPS?**

DPS: This stands for 'dynamic purchasing system' which means suppliers that aren't currently listed on the framework have the opportunity to join, as long as they meet all the necessary requirements. We'll talk you through how this works on page 4.

Renewable Biomass and Related Services - 1080 Utilities DPS	
Start date:	16 August 2021
Expiry date:	24 February 2029
Extension(s) if applicable:	N/A
Contract notice ref no:	2021/S 000-009517
Corrigendum (if applicable):	2024/S 000-040817
Potential maximum value:	£25m
Rebate:	1% paid by supplier/provider
Geographical location(s):	National

DPS Summary

Our suppliers are experienced in providing the bulk supply biomass wood fuel chips, pellets and related products including things like:

- Boiler maintenance and servicing for relevant product areas
- Completion of RHI (Renewable Heat Incentive) applications where applicable
- Supply of heat (where suppliers/providers fund, own and operated the boiler and sell the heat to the customer on per k Wh basis
- Hopper/storage vessel housekeeping training
- Wood cracking and wood chipping
- Fuel level management

Each product will be tailored to your particular specification, ensuring the individual needs are met for your school.

We can also provide services such as boiler setting training, bunker trimming, clinkering, hopper housekeeping training, completion of RHI applications, boiler maintenance and servicing and supply of heat.

Category (lot)	Description	Method of awarding a supplier
1	Biomass Fuel Chips	Further competition
2	Biomass Fuel Pellets	Further competition

Suppliers are registered on the Biomass Suppliers List (BSL) which a fuel sustainability scheme administered on behalf of the Department of Energy and Climate Change. Purchasing from a BSL registered supplier is an essential requirement for those customers who claim RHI (Renewable Heat Incentive) payments from the government. For more information, please visit: biomass-suppliers-list.service.gov.uk

Suppliers are Woodsure or Woodsure Plus approved as well. Woodsure is the UK's primary wood fuel quality assurance scheme, and customers who purchase from a Woodsure certified producer can be assured that the producer has been checked and tested and have demonstrated they are able to produce and supply a quality product. For more information, please visit: biomass-suppliers-list.service.gov.uk

In addition to the above, suppliers are also registered ENplus producers or traders. A key advantage of the ENplus standard is that pellet quality is managed through the entire supply chain including production, storage and transport all the way to the end consumer. For more information, please visit: www.pelletcouncil.org.uk

Benefits of using our utilities DPS agreements:

1. Excellent value for money for schools up and down the country
2. Hassle free energy – we do the hard parts for you
3. No hidden charges. We're a not-for-profit organisation and always fully transparent with any fees
4. Flexible and fixed pricing for you to choose from
5. Trusted by more than 3,500 schools who already use us for their energy

How to use the DPS

Want to use a supplier that isn't listed on the DPS?

- The DPS can be opened up to let new suppliers apply to be on it
- We can explain the process to any potential suppliers and will evaluate their submissions
- Successful suppliers will be awarded onto the DPS and are then available to bid on a further competition

Step 1: Initial enquiry

- You can contact YPO for information on the DPS or view details on the website
- To access the DPS you'll then need to complete and return the customer access agreement which you can also download on the website or we can send this to you directly

Step 2: Meeting customer requirements

- We'll discuss and agree the support you think you'll need, we're here to help make the procurement process as straightforward as possible for you. We can be involved as much or as little as you like
- We'll provide you with templates, advice and guidance for carrying out a compliant further competition

Step 3: Further competition

- We can help you produce specifications, questions, pricing schedules and evaluation criteria
- You may choose to do the further competition on your own portal or we can do this for you on your behalf
- Clarification responses, evaluation of submissions and drafting of award letters and contracts are elements of the process that you'll need to complete yourself
- But remember to let us know the outcome of any further competitions you do
- When running a further competition, you should select (award) the supplier based on the most economically advantageous responses. You'll need to provide suppliers with the methodology behind your evaluation, including the evaluation criteria and the weightings against each one
- The weightings for cost, quality, delivery, customer service and added value can be opened for evaluation within the further competition process
- We recommend the below as best practice award criteria for any further competition process
- You can also set any other appropriate KPIs and/or service levels within the quality award criteria

Recommended criteria weightings:

CRITERION	PERCENTAGE WEIGHTINGS
Cost	40%
Quality	20%
Delivery and Customer Service	20%
Added Value	20%

You can also carry out the further competition process yourself, but bear in mind it's quite resource intensive. If you do decide to do this independently, please let a member of the team know so we can set aside some time to help if you need extra support at any point

This simple to run procurement exercise is in-place to help you select the most suitable supplier to meet your requirements and it creates fair 'competition' between them, making sure you get the best value for money. All the suppliers have been through a thorough vetting process before being awarded onto our frameworks – one less thing for you to worry about.

Step 4: Contract award

- We'll issue the acceptance letter to the winning supplier you've chosen, as well as the rejection letters to the unsuccessful suppliers via our e-portal
- There's then an optional 10-day standstill/cooling off period which we advise you take. During this time you can't have any contact with the winning or losing suppliers
- The award notice is issued after the 10-day standstill period. The chosen supplier is awarded (this must be done within 30 days), and you can start working with them
- We'll be on-hand to provide support and recommendations around terms and conditions and the signing of any order forms. Once your contract is set up, we're still available to help you with any questions you may have

Suppliers on this DPS

As this is a DPS, the supplier list is continually growing. The most current list of suppliers is kept up to date on the website.

Terms and conditions

Suppliers/providers awarded onto the DPS have agreed to and signed YPO's establishment agreement terms and conditions. The call-off terms and conditions can be amended by the customer and supplier/provider by mutual agreement to include additional terms to supplement the DPS establishment agreement terms and conditions. A variation form is included in the DPS establishment agreement terms and conditions document to allow customers and suppliers/providers to amend any terms if required.

If the customer proposes any amendments to the DPS establishment agreement terms and conditions these must be provided to suppliers/providers in the further competition documentation. This will then allow all suppliers/providers on the DPS to consider any amendments and bid accordingly.

Glossary

Framework

A framework is an agreement put in place with a supplier or a range of suppliers, allowing you to place an order for products (e.g. furniture, first aid equipment – something you can touch), services (e.g. energy, electronic kitchen management, cleaning etc) or works (e.g. building works) in a quick and easy way.

Frameworks are usually set up with large volume buying in mind. This doesn't mean that you need to purchase a large amount but when you add together all the potential customer spend or volume, you can often achieve better prices and/or value for money for everyone through buying in this way.

A framework agreement will contain a set of agreed terms and conditions that apply to any contract awarded under it. All our frameworks have been put in place to comply with the Public Contract Regulations. Any supplier awarded onto one of our frameworks will have had due diligence undertaken on them and each supplier will have been evaluated to make sure they have the right policies and procedures in place to deliver quality products, services and works to our public sector customers whilst achieving value for money.

DPS

DPS stands for 'Dynamic Purchasing System'. A DPS is a procurement technique used by the public sector to purchase commonly used goods, works or services. A DPS differs from a framework because it's open to new suppliers to join at any time, as long as they meet our selection criteria. This means any new suppliers or a local suppliers you might already use (e.g. gardener, food provider etc) can apply to join at any time. We've got a number of DPS frameworks in place to meet the needs of our customers and allow for added flexibility.

Contract

This is a legally binding agreement between you and one supplier. You're able to call off any framework agreement or DPS to meet your school's needs and only when a call off order is placed and accepted is a contract created. The five rules of contract formation will then be met.

These are:

1. Offer (The offer of work you've placed with the supplier)
2. Acceptance (by the supplier to fulfil your order)
3. Consideration (price)
4. Intention to be legally bound (issuing of the call off contract)
5. Capacity to contract (e.g. authorised signatures to the call off contract)

A framework on the other hand is not strictly a contract as no money has changed hands but is an overarching umbrella agreement under which contracts can be created. The framework doesn't commit either party to actually enter into a contract, but it does set out the terms and conditions, which will apply if a contract is created.

Call Off

A call off is another way of saying 'placing an order'. You're able to call off any framework agreement or DPS to meet the needs of your school. Depending on how the framework's been set up, you might be able to carry out a direct award.

Further Competition

A further competition is where you'll set out your exact requirements and allow suppliers appointed onto a framework or DPS to give you their best solution and price for what you need. You can then evaluate the suppliers against your bespoke requirements. This is slightly more time consuming, but it's still quicker than doing your own procurement. A further competition is also referred to sometimes as a mini competition.

Lot

This is usually part of the framework that's been broken down into smaller sections/categories. Think of it like the YPO catalogue that's broken down into sections e.g. pens, paper, chairs. Frameworks are often broken down this way into smaller areas, to encourage small and medium sized enterprises or organisations the opportunity to bid for public sector contracts and encourage competition so we can deliver the best value to our customers.

The beauty of calling off a YPO framework or DPS is that the contract will have already been prepared for you with just the blanks to fill in. This will have been agreed with all the suppliers on the framework or DPS. Also, all suppliers have been pre-evaluated and checks carried out on them to make sure they're suitable. We can support you through the entire process and any special conditions can be easily added into the contract.
