About YPO

YPO provides procurement solutions for public sector organisations to set up or renew contracts for a widerange of services.

Established in 1974 by a group of 13 local authorities, we're one of the UK's largest public sector buying organisation and we're still 100% publicly owned today. We work closely with our suppliers and collaborate with other public sector buying organisations to achieve efficiencies and value for money, returning all our profits back into the heart of the public sector.

Our team of qualified procurement professionals can offer advice, guidance and expertise on procurement, as well as regular engagement and communication to make sure your objectives are achieved.

Overview

Start date

01 April 2025

Expiry date

31 March 2029

Extension(s) (if applicable)

N/A

How to award/call-off from the framework

To access the Framework Agreement, customers are required to complete and return a signed Non-Disclosure and Customer Access Agreement.

Direct award for lots 1 to 6

Direct Award is an efficient and straightforward process without re-opening competition. Customers should consider all the information in the Pricing Schedule and can Direct Award to any supplier if they can demonstrate that the selected supplier represents/offers the most economically advantageous tender (MEAT) based on their requirements.

Direct award for lots 7 to 9

Lots 7, 8 and 9 are all single supplier lots, to direct award under these lots contact YPO for a unique reference number. Quote the reference number when you contact the supplier to ensure you are given YPO pricing.

Further Competition for products & services included in lots 1 to 6 and lots 10 to 13

CAs will be able to evaluate providers on price, quality, delivery & customer service and social value in their further competition. YPO can assist with running your further competition process and will send the provider submissions to you for evaluation. with assistance from YPO on documentation review if required.

Evaluation Criteria	% Weightings
Cost	40%
Quality	20%
Delivery and Customer Service	20%
Social Value	20%

YPO can help customers produce specifications, qualitative questions, pricing schedules and evaluation criteria to undertake a further competition. Clarification responses, evaluation of further competition submissions, drafting of award letters and contracts and applicable Contract Award Notices are elements of the process that will need to be completed by the customer.

When running a further competition, customers should award based on the most economically advantageous tender and must provide suppliers/ providers with the methodology behind the evaluation, including the evaluation criteria and the weightings that are applied.

Evaluation must be fair and transparent and the methodologies used to evaluate must be provided to the suppliers/providers within the further competition documentation.

Customers must inform YPO of the outcome of any further competition they undertake themselves.

Terms and conditions

YPO has agreed a set of framework terms and conditions; these are between YPO and the provider. These framework terms and conditions cannot be amended by the contracting authority or the provider.

To supplement the framework terms and conditions, YPO has created call-off terms and conditions for contracting authorities to put in place with the provider.

The call-off terms and conditions can be utilised to ensure that they fit your requirements and if both parties agree, they can be amended to support the delivery of the service.

Once the call-off terms and conditions are agreed you will need to specify these within the order form under the "amendment to terms and conditions" section. The order form then forms the legally binding contract between you the customer and the provider.
