Specification, overview and lot structure

Overview

YPO has established a fully compliant Framework for First Aid and Medical Supplies.

This framework provides customers with a route to market for the supply of First Aid and Medical Supplies, meaning customers do not need to publish their requirements on a public procurement platform or pre-qualify suppliers/providers in order to procure these products and services.

This is a UK wide framework agreement that is available to any eligible UK public sector organisation. The framework can be used to procure services both above and below the relevant UK public procurement thresholds.

Through the framework, customers can procure a wide range of First Aid and Medical Supplies. The contract can be accessed for stock supply through the YPO catalogues and further competition.

This framework appeals to any Education setting including Schools, Academy Trusts, Colleges, and Universities. Also, any public sector organisation such as NHS, Emergency Services Sector, Care Sector, Prison Service and Local Authorities.

Clarification responses, Evaluation of further competition submissions, drafting of award letters and contracts and applicable Contract Award Notices are elements of the process that will need to be completed by the customer. Customers must inform YPO of the outcome of any further competition they undertake themselves.

When running a Further Competition, customers should award based on the most economically advantageous tender and must provide suppliers/providers with the methodology behind the evaluation, including the evaluation criteria and the weightings that are applied.

The selection/award criteria used to establish the framework agreement was:

Criteria	Percentage Weightings
Cost	45%
Quality	25%
Delivery and Customer Service	15%
Social Value / Sustainability	15%

The weightings for Cost, Quality, Delivery and Customer Service and Social Value / Sustainability can be re-opened for evaluation within the further competition. Customers can also set any appropriate KPI's and/or service levels within the quality award criteria.
