provide common goods and services to any public-sector organisation and protection of the environment is consider a central business concern

"YPO is committed to protecting the environment and embedding sustainability into all aspects of our operations. We will allocate the necessary resources to achieve our environmental objectives and strive to integrate good environmental practices into every decision and activity."

Board of Directors – YPO December 2025

Continual Improvement – Maintain ongoing review of the Environmental Management System (EMS) to determine effectiveness and encourage continual improvement in performance.

Pollution Prevention – Remove physical pollution and environmental nuisance caused by YPO activities and implement mitigation measures wherever possible.

Compliance – Ensure compliance with all applicable legal requirements and other obligations related to environmental aspects.

Environmental Objectives – Set clear environmental objectives and targets, regularly monitor progress, and report on performance.

Resource Efficiency & Waste Management – Identify and reduce adverse environmental impacts from operations, resource consumption, and waste management practices to promote sustainable development.

Incident Management – Identify and record environmental accidents, incidents, nonconformities, and their impacts through improved management techniques.

Training & Awareness – Raise employee awareness of environmental responsibilities and encourage involvement in initiatives, including relevant training.

Transparency – Make the Environmental Policy available to employees, stakeholders, and the public, and review it periodically based on audits, complaints, and policy updates.

This policy will be reviewed and updated periodically and has the full support of the YPO Board of Directors, who will provide resources and backing to meet internal and external requirements for environmental best practice
