

# MAXIMISE YOUR MICROSOFT LICENSING

## READY TO GET MORE FROM YOUR MICROSOFT 365 INVESTMENT, WITHOUT THE HEADACHE?

This cheat sheet cuts through the noise to highlight the essentials: understanding your licensing, making sense of security standards, and focusing on your top priorities for the year ahead. Whether you're tightening budgets or tightening security, it's all about working smarter with what you've got.

Microsoft licensing isn't just a box tick, it's an investment. But are you getting the most out of it? Here's what to consider:

Are you paying for features you don't actually use?

Does your licence mix suit different user needs?

Can your current licensing model grow with your business?

Are you making full use of the security and compliance features your licensing plan includes?

## WHY REVIEWING YOUR LICENSING USAGE MATTERS

### Underutilisation

56% of business licences are underutilised. Don't let yours be one of them.

### Secure the foundation

Is your Microsoft environment securely configured? Is your data backed up and secure?

### Maximising value

Make sure you're getting every benefit from your investment.

## DON'T WAIT:

Genuinely. If you've already invested in tools like Microsoft 365, it makes no sense not to make sure they're configured properly and pulling their weight.

And in a world where one misconfiguration can mean a major breach, "we'll get to it later" just isn't good enough.

## HOW TO TAKE ACTION:

You've already ranked what's most important to you, whether that's driving cost efficiency, getting more from your existing tools, or strengthening your cybersecurity defences.

The good news? You don't need three separate projects to tackle them. A Licensing Review brings them all together, giving you fast, actionable insight into how well your Microsoft 365 setup is working for you and your teams.

## KEEPING YOU SECURE AND COMPLIANT

Keeping an environment secure is not a one time activity, at Intercity we understand the importance of continually reviewing and optimising, given the fast paced nature of cyber threats.

At Intercity when we provide your licensing, we regularly review your environment as part of the service, we don't simply transact we keep you secure and ensure you make the most out of your investment with Microsoft. Additionally, we by default will keep your data backed up and safe, so in the event of an issue, operational impact is kept to a minimum.

## DID YOU KNOW?

As your trusted Microsoft licence partner we at Intercity take the pain away and let you get on with what really matters. We provide you, by default, a customer portal to manage, change and view your licensing, including dashboard reporting.

And finally, we don't just supply you the licensing, we have a team of experts ready to help you adopt, deploy and maximise the power of Microsoft 365.

# DON'T WAIT UNTIL IT'S TOO LATE.
