Customer benefits

- + Easy to use - This framework is already EU/UK Compliant. We've already done the procurement work, so there's no need to run a full EU tender.
- + The providers appointed onto this framework have been 'pre-qualified' as to their general suitability. This means when buying services from them customers are assured that they can meet specified requirements.
- + Customers will receive the benefits of an aggregated volume of spend and the benefits associated with an increased leverage on the market.
