

A SECURE, RESILIENT AND COMPLIANT SOLUTION FOR AWS CLOUD

Managed Cloud – AWS, UK Sovereign from Sungard Availability Services (Sungard AS) enables the flexibility, scalability and reliability of the industry-leading AWS cloud within your hybrid IT environments. Now, you can have the control, compliance and security your business requires, and the speed of a hyperscale cloud, delivered with UK sovereign support.

MEET CRITICAL SECURITY AND COMPLIANCE DEMANDS

Amazon Web Services (AWS) provides the building blocks for configuration and compliance across your AWS accounts. *Managed Cloud – AWS, UK Sovereign* ensures these essentials are enabled and enforced across every one of your AWS accounts, and that they meet your security and compliance requirements.

- Gather data and keep tabs on provisioning activity in every account with native AWS Config and AWS CloudTrail tools.
- Enable and apply a best-practice architecture for your AWS accounts.
- Enforce configurations, across your entire AWS deployment.
- Ensure your team doesn't overspend with built-in billing alerts.

GET THE RESILIENT, FLEXIBLE INFRASTRUCTURE NEEDED FOR A DIGITAL MARKETPLACE

As a Public Services Network (PSN) service provider, Sungard AS can fully support your 'cloud first' ambitions with government approved cloud services. Under the G-Cloud call-off contract, we deliver enterprise-class, multitenancy, scalable IT infrastructures for production and pre-production workloads from a secure hosted environment, resiliently connected. You retain control over your applications without the burden of owning and managing the underlying AWS infrastructure.

Key Features

- Security cleared, UK sovereign support by SC+NPPV cleared personnel (SC = Security Check, NPPV = Non Police Personal Vetting)
- Specialist Cloud Services under the G-Cloud and DOS3 framework to help you transition to and manage a hybrid cloud model
- Certified connection to PSN; Assured (PSN-A), and Protected (PSN-P)
- Service is based on the 14 Cloud Security Principles set out by the CESG
- AWS Managed Service Provider (MSP) Partnership
- Hybrid connectivity to the existing Sungard AS hosted 'Official' and 'Official Sensitive' platforms
- Purchased through G-Cloud

WHY SUNGARD AS FOR AWS SERVICES?

Demonstrated AWS expertise. We are an accredited AWS Managed Service Provider (MSP), focused on architecting and managing hybrid, resilient and secure mission-critical application workloads. We are the only G-Cloud provider to earn both MSP and Storage Competency certifications, due to our dedication to following the AWS Well Architected Framework for resilient workloads.

Hybrid IT expertise. We're specialists in hybrid IT solutions, encompassing cloud, data centre services, networks and security, applications and software, business continuity and recovery, and consulting services. Our enterprise-grade solutions are trusted by customers across the most tightly-regulated and sensitive industries worldwide.

A solid track record. We already provide managed availability services to 120+ public sector organisations and national programs—including central and local government, policing, hospitals, universities, housing associations and emergency services—so we're familiar with your dynamics and demands. We have proven resilience and security

capabilities for running public sector workloads on our hosted 'Official' and 'Official Sensitive' platforms, as well as on our *Managed Cloud - AWS, UK Sovereign* platforms.

A proven approach. Our approach isn't just built on technology, but also people and processes. We apply ITIL principles, methodologies and governance to the discovery, design, build and running of your hybrid IT environment. We can also help you deliver IT solutions in a more agile DevOps manner, at higher availability and lower cost.

Consulting and transformation services. We back our track record in providing sovereign services to both central and local government, including cloud, hosting and recovery, with consultancy services for efficient adoption and a smoother transformation.

With SLA-backed *Managed Cloud – AWS, UK Sovereign*, you gain the agility of an AWS cloud, the security and compliance needed for your most sensitive data, and the IT resilience public sector organisations require to deliver responsive managed services. And all from Sungard AS, without having to hire and retain AWS experts on your own.

To learn more, visit www.sungardas.co.uk, email us at government@sungardas.com or call us at +44 (0) 800 143 413.

***Managed Cloud – AWS, UK Sovereign* is part of the Sungard AS Amazon Web Services (AWS) portfolio**, which also includes *Managed Cloud – AWS, Cloud Recovery – AWS* and *Managed Backup – AWS*. As a result, you can have a resilient and recoverable IT environment and the convenience of working with a single vendor for a range of AWS services.
