**Stacy Parsons**  
YPO Customer  
Relationship Manager

“Hello, I’m Stacy and I’m looking forward to welcoming you into the pure technology group family.

I will be the happy friendly voice at the other side of the phone, as the YPO Customer Relationship Manager. I’ve been lucky enough to work within the Education Sector for the past 9 years with a major role in heading up the CPC Framework and I’m equally excited to be a part of this brand new framework.”

IT in the public sector is a priority investment area for [pure technology group](#) and has been since our inception in 2007. As always this has been fuelled by our passion for the three things that matter most to our company – our customers, our people & technology. Our commitment to service excellence and solution knowledge is earning us a growing reputation for the provision of public sector solutions. PTG’s aspiration for the YPO framework and its other state sector partners is to play a major role in the journey to digitise service delivery in the public sector.

Commenting on the partnership, PTG director Scott Deacon said: “Both YPO and PTG have Yorkshire roots with a national reach, which has illustrated an equally beneficial start to a long-lasting relationship.

“ This will be a key framework for many public sector organisations, especially those in local government and education where YPO is particularly strong, as they look to upgrade their infrastructure and accelerate their cloud ambitions. PTG is thrilled to be a supplier on this framework and is equally excited for what the future of the public sector entails for businesses alike. ”

### trusted supplier

A trusted supplier to many public sector organisations, represented on an increasing number of public sector frameworks.

### operational excellence

We are Cyber Essentials Plus accredited and apply full ITIL, ISO 9001 and ISO 27001 processes throughout our operations.

### public sector expertise

We have an experienced team of security cleared and DBS checked Presales, Solution Architects, Deployment Specialists, Technical and Support Desk Engineers.

### committed to the public sector

Our extensive experience of working with Public Sector organisations gives us a deep understanding of the vision, challenges and opportunities across the wider public sector.

Crescent Purchasing Consortium

The Crescent Purchasing Consortium (CPC) is a purchasing consortium, developed to fill a gap in the provision of reliable and best-value frameworks for the FE sector. CPC provides its members with specialist advice on best spending practices and how to obtain best value for money.

Earning our place on the framework enables PTG to be a trusted advisor to the Public Sector and underpins our commitment to this vertical.

HM Government  
G-Cloud

Securing entry on to this framework further enables the group to deliver its Cloud expertise to the UK Government.

PTG assures its total commitment to facilitate organisations to be Cloud-ready along with comprehensive hosting and support capabilities. This further strengthens the group’s strategic plan to build upon existing successful partnerships with public-sector bodies.

The Crown Commercial Service (CCS) brings together policy, advice and direct buying together in a single organisation to make savings for customers in both central government and the wider public sector. Their aims are to achieve maximum value from every commercial relationship, and to improve the quality of service delivery for common goods and services across government; providing commercial services to the public sector and saving money for the taxpayer.
